Professional Summary

Full Stack Developer with hands-on experience in MERN stack, RESTful APIs, and SQL/NoSQL databases (MongoDB, MySQL, PostgreSQL). Improved API performance by 30% and reduced storage costs by 40% through database optimization and AWS. Strong DSA foundation with 1100+ problems solved and 1700+ LeetCode rating. Proven ability to build secure, scalable, production-ready applications in agile environments.

Education

Madan Mohan Malaviya University of Technology

Bachelor of Technology in Electronics and Communication Engineering; CGPA: 8.86

2023 – 2027

Gorakhpur, India

Experience

AvQuint Innovations Pvt. Ltd.

Full Stack Developer Intern

June 2026 – Aug 2026

Remote

- Developed **8+ responsive frontend features** for **FlexTenure Consumer**, a flexible payment platform serving customers managing **repayments** across multiple credit card providers, integrating UI components with backend APIs.
- Implemented consumer-side payment and account-management functionality by connecting **5+ application workflows** with backend services and **MySQL**, supporting end-to-end transaction handling.
- Resolved **15+ frontend-backend** integration bugs, improving application stability and reducing production issues by debugging APIs within an existing codebase.

Projects

StudyKaro – Full-Stack EdTech Platform (Live Link)

Oct 2025 – Nov 2025

Tech Stack: MERN Stack, Razorpay API, Cloudinary, Nodemailer, Bcrypt

- Strengthened platform security by implementing **JWT** and Bcrypt-based authentication for **50+ users** (students and instructors), enabling secure role-based access across **2 user roles**.
- Streamlined course procurement by integrating Razorpay for payments and Nodemailer for automated notifications, enabling reliable end-to-end billing workflows.
- Improved API performance by **30%** by implementing MongoDB indexing across frequently queried course and dashboard data, reducing database query overhead.
- Reduced server storage requirements by **40%** by integrating Cloudinary for media storage and delivery, enabling scalable asset management.

Agentic AI Blog Generator (Live Link)

July 2026 – Present

Tech Stack: Python, Streamlit, LangGraph, LangChain, Groq API, Tavily API, Gemini API, Pydantic

- Automated end-to-end blog generation by architecting a **4-agent LangGraph**-based pipeline (planning, research, writing, image generation), reducing manual content creation time by an estimated **60%**.
- Enabled real-time, source-aware content generation by integrating **Tavily Search and Groq LLM**, processing **10+ research queries** per article for improved content accuracy.
- Built an AI application handling **3 coordinated API** integrations (Groq, Tavily, Gemini) via Python and **Streamlit**.

Technical Skills

Programming Languages: Python, C++, C, JavaScript, SQL

Core Computer Science: Data Structures & Algorithms, OOPs, Operating Systems, Computer Networks, DBMS

Frontend: HTML5, CSS, React.js, Tailwind CSS

Backend: Node.js, Express.js, RESTful APIs

Databases: MongoDB, PostgreSQL, MySQL

GenAI: LangChain, LangGraph, RAG, LLMs, Agentic AI

Developer Tools: Git, GitHub, Postman, Vercel, Streamlit

Cloud & DevOps: AWS (EC2, S3 basics), Git, CI/CD.

Soft Skills: Problem-Solving, Communication, Team Collaboration, Debugging, Adaptability, Time Management

Areas of Interest: Full Stack Development, Generative AI, Deep Learning, Agentic AI

Certifications

- Introducing Generative AI with AWS — Udacity (in collaboration with Accenture)
- AWS Cloud Practitioner (ongoing)

Achievements

- Solved **1100+ DSA problems** across LeetCode, CodeChef, and CodeForces.
- Achieved **1700+ LeetCode contest rating**, demonstrating strong algorithmic problem-solving skills.
- Secured **5th place** in MazeX at **Technex'25, IIT BHU**, a robotics-based challenge.
- Shortlisted for **Internal Smart India Hackathon 2024** among **100+ project submissions**.
- Selected from **3,600+ students** for **Concor Super 30 Varanasi** free residential JEE preparation program.

Position of Responsibility

- Vice-President** at **Electronics and Communication Engineering Society**, MMMUT.
- Treasurer** at **Drone & IoT Club**, MMMUT.
- Organizer** of **SWIFT WING**, the Annual Technical Fest of MMMUT.
